MENLO PARK, SAN MATEO COUNTY, CALIFORNIA, FRIDAY, OCTOBER 11, 1929

No. 1

Supervisors Back County Water District

BOARD GIVES ENDORSEMENT TO PROJECT AFTER HEARING FROM COMMITTEE.

The board of supervisors Monday morning unanimously went on record as in favor of the formation of the proposed San Mateo County Water District. The favorable action was taken on motion of Supervisor Hickey, seconded by Supervisor Brown, after Edward T. Harrison of Redwood City, chairman of the citizens' water committee, had explained the plans for the formation of the proposed district and had pointed out the serious problems confronting the Peninsula with regard to the future water supply. Attending the meeting with Harrison were Chas. G. Lambert, member of the citizens' committee and M. J. Bartel, hydraulic engineer for the City and County of San Francisco. The citizens' water committee was named several months ago, following the submission of a report on the county water needs by an engineers' committee consisting of Chas. Marx of Stanford University, County Engineer Geo. A. Kneese, C. L. Dimmitt of Redwood City, J. F. Byrbee of Palo Alto, James James of Burlingame and Oscar Weissgerber of San Mateo.

Chairman Harrison explained to the supervisors the plan of securing water from the Hetch Hetchy system, San Francisco having promised the water at cost, and then in turn sell it to the 30 or more distributing water companies on the Peninsula. Two main pipes, from 36 to 44 inches in size, one to run along the western foothills to serve the residential section, and the other along the Bayshore section to serve the industrial section, together with equalizing reservoirs and one main connection to Crystal Springs Lake, will constitute the system, the cost of which, it is estimated, will be between four and five million dollars.

Coast Road Action Near
A communication was received from Supervisor Andrew J. Gallagher of San Francisco explaining the reason for the delay in starting the work on the Pedro Mountain section of the San Francisco to Santa Cruz scenic highway along the coast shore. Gallagher stated that the joint highway district commissioners planned to let the contract for this work in one unit, but that the commission was awaiting the outcome of a suit brought in Ventura county to test the legality of the bonds in a similar highway improvement. The legality of the bonds was passed by the Superior Court, but an appeal was taken to the Supreme Court. If the decision of the higher court is favorable, Gallagher said work on the entire unit of the Pedro mountain and the Santa Cruz end will be started at once. Should the decision be unfavorable the contract will be let for only a portion of the work, and the three counties, San Francisco, San Mateo and Santa Cruz, will pay their portion of the cost, which will be approximately \$100,000.

Other Business
The report of County Veterinarian W. C. McLean showed that he had collected the sum of \$337.35 in fees for inspections made by him during the month of September.

The board, on motion of Supervisor Hickey, seconded by Supervisor Poole, appointed Aleck Welte, a lay veterinarian inspector for the county, at a salary of \$185 a month. Welte will work principally at South San Francisco, and the purpose of having the additional inspector, as explained by Supervisor Hickey, is to put the inspection on a basis so that meat can be shipped to any part of the State. The department will be self supporting.

Orphan And Blind Aid
Recommendations of the Social Service Commission for State aid for orphans and also for six cases of needy blind, were approved by the board, on Brown.

A petition asking for the installation of an additional light at Hill street and Gordon avenue in Belmont, was granted, on motion of Supervisor Brown, seconded by Supervisor Francis.

The State Agricultural Society sent

a letter to the board expressing appreciation for the cooperation and interest shown in this year's State Fair, and highly praising the San Mateo county exhibit at Sacramento.

County Engineer Geo. A. Kneese was authorized, on motion of Supervisors Brown and Francis, to furnish the U. S. Geodetic Survey with a county map in connection with the survey being made of all the coast roads in the State.

Maps of Sunset Highlands at San Carlos and Newbridge Park No. 4, submitted by County Engineer Geo. A. Kneese, were approved by the board, on motion of Supervisors Poole and Brown.

On the recommendation of District Attorney Franklin Swart, the board adopted a resolution empowering Attorney H. A. Postlewaite of San Francisco to proceed with the filing of foreclosure proceedings against delinquent assessments for street improvements in the North Palo Alto district, under the resolution of intention passed August 16, 1926. Stewart said he was working on the Visitation Valley street assessment delinquencies and expected to be ready for action on these very soon.

Soft Drink Applications
The following applications for soft drink permits were filed with the board, hearing on same being set for Monday, October 21:
Mrs. L. Armistead, Menlo Park; Frank Klingbuss, Crystal Springs; Philip Donohoe, East Palo Alto; A. Ottenson, Atherton; H. Nelson, Kings Mountain, and W. Morris, Willow Road, East Palo Alto.

County Tax Collector A. McSweeney was given his usual authority to collect taxes outside his office during the coming months.

A communication was received from Colonel John H. Skoggs, division engineer for the State Highway Commission, asking the board to pass a resolution covering the abandonment of a portion of the old county road between Colma and South San Francisco, now a part of the State highway system.

The matter was referred to District Attorney Franklin Swart, on motion of Supervisors Hickey and Francis, to prepare the necessary resolution.

Hearing in the matter of the petition for the closing of Francisco Boulevard at Salada Beach was ordered continued by Chairman Thompson until Monday, November 4.

The Pacific Gas and Electric Company was awarded the contract for supplying the Menlo Park Lighting District with service during the next five years.

Bill Boards Opposed
The Burlingame Woman's Club addressed a communication to the board enclosing a resolution adopted at a recent meeting, calling upon the supervisors to take action to abolish signs along the scenic highways of San Mateo county. Mrs. Kneese, the clerk, was directed, on motion of Supervisors Brown and Poole, to write the club at San Mateo on October 18th, of the board are heartily in favor of the idea, but that legally they have no jurisdiction in the matter.

The Burlingame-San Mateo Flower and Garden Club addressed a letter to the board calling attention to the fall flower show that is to be held by the club at San Mateo on October 18th. The board, on motion of Supervisors Hickey and Poole, directed Mrs. Kneese, the clerk, to write the club and state that the board will be very glad to assist in any way in making the affair a success.

A communication was received from Mayor Christensen of Palo Alto inviting the members of the board to attend a meeting at the Community House in Palo Alto on October 16 in the interest of the elimination of grade crossings on the Peninsula. Mrs. Kneese was directed to answer the communication and state that the board would be represented at the meeting.

NAVY MAN PRESENTS WAR BOOKS TO LIBRARY
Commander L. T. Lightle, U. S. Navy, retired, has presented Menlo library with a 25 volume set of the Official Account of Operations of the Union and Confederate Navies in the Civil War. This valuable reference series cannot be obtained easily so Menlo Students are fortunate to have access to them.

—El Roble Blanco, Menlo School.

Sequoia Loses To Galileo 18 to 13

Costly fumbles by the Sequoia backfield in the first stages of the game paved the way for two successive touchdowns for Galileo of San Francisco, phone Burlingame 2158.

Enough to win over the Cherokees on the local field Friday afternoon by a score of 18 to 13. Three touchdowns were scored by the city players in the first quarter in rapid succession, the third being made on a spectacular run by Alan Bell of 80 yards after he had taken a lateral pass.

This seemed to stir the Cherokees to action, for they started doing things in the second quarter. "Chuck" DeLacy shot some pretty passes to "Ike" Britschgi that advanced the ball to the Galileo 30 yard line. Another pass by DeLacy to Britschgi was successful and "Ike" scampered across the line for Sequoia's first touchdown. Parlee added the extra point.

Parlee Runs 90 Yards
Parlee electrified the crowd in the opening of the third quarter, when he took the Galileo kickoff on his five-yard line and eluding tackler after tackler and with perfect interference romped 90 yards for a touchdown. Conversion failed and the score was 18 to 13.

Galileo brought the ball within the shadow of the goal posts twice in the last quarter and threatened seriously to score, but Coach Dimick's men fought valiantly and prevented any damage being done. In the closing stages of the game Sequoia opened an aerial attack, DeLacy heaving some line drives that Britschgi, Stillson, Litter and Parlee alternated in receiving, bringing the ball within scoring distance, but instead of keeping up the short passes, which Galileo seemed hopeless against, Sequoia took to the long heaves and it was all over when a Galileo man intercepted on his own 30-yard line.

Sequoia looked good at times and awful at other stages of the game. The line acted like a sieve with the Galileo plunging through for repeated gains. The best defense work of the afternoon in the line was done by Chilcott, right tackle. Coach Dimick and Casanova seem to have considerable work cut out for them in bolstering up the line for the opening of the league games on October 25.

The lineups of the two teams Friday were:

Sequoia	Galileo
R. Clancy.....R.E.L.	Westphal
Chilcott.....R.T.L.	Lazzari
Goldthwaite.....R.G.L.	DeMartini
C. Clancy.....C.	Lund
Terwillinger.....L.G.R.	Merrillson
Maloney.....L.T.R.	Klink
Worrell.....L.E.R.	Bacigalupi
Lintner.....Q.	Tofanelli
DeLacy.....L.H.R.	Beli
Britschgi.....R.H.L.	Docker
Parlee.....F.	Baader

Substitutes: Galileo—Ficken, Di-kesta, Sequoia—Leroy, Stillson, Cleveland, Lawler, Willard.

Officials—Harry Braddock, referee; Dnd DeGroot, field judge; Bill Kelley, head linesman.

NEW POLICE OFFICER TO BE APPOINTED IN MENLO PARK

At a special meeting of the City Council of Menlo Park held on Thursday night it was determined that the city needed another police officer and one will be appointed as soon as it is possible.

In order to secure this position the applicant must pass an examination which is about the equal of the one passed by recruits for the United States army. Dr. Gerlough of this city will attend to the medical examination and applicants must appear before him before taking the written examination on Tuesday.

The written examination papers will be sent to the Council for examination without the name of the writer on them, a key number being used, so that the award of the position will be absolutely fair. The applicant must be a citizen of the United States and have resided in Menlo Park for the past year.

Campaign Mapped To Enroll Scouts

Two hundred additional recruits are going to be secured and a campaign to enroll them is scheduled for October 14 to October 19, inclusive, with arrangements almost completed.

For recruiting purposes the county will be divided into districts. Each public school will have a recruiting team, and four-minute boy speakers will endeavor to convince the rookies that the Scouts are real live lads.

Hearty support is promised the campaign by the school authorities. The prime object of the Scout movement, stated Charles J. Eldridge, chairman of the executive board, San Mateo County District Boy Scouts of America, is to provide the boyhood of our county with a means of recreation that will at the same time tend to build up their characters and broaden their knowledge.

The chosen playground of the Scout is the open. He learns the history of our country, the composition and history of its flag and the forms of respect due it. He learns how to tie knots that hold and that will unite easily in order that he may be ready for emergencies and live up to the Scout motto of "Be Prepared." He then graduates to the position of Tenderfoot.

From then on instruction, diluted with recreation, comes fast. The Scout learns to render first aid to the injured, to signal, to start a fire and to cook his meals in camp. Lessons in tracking, thrift and self-reliance follow. After he has learned the rank of First Class Scout the boy's attention is attracted to the Merit Badge program which is all-inclusive. A Scout can learn about civics, sciences, wood-lore or mechanics. The program is broad enough to keep him interested for a long time. When he is past the Merit Badges and is old enough, he may be an assistant Scoutmaster and help in the work of leadership himself.

From hence he may continue to associate himself with the movement as Scoutmaster, commissioner and member of council.

The end of Scouting, its ideals, and its benefits may be shown by the Scout law oath. Each Scout takes the following oath on being presented his badge:

"On my honor, I will do my best to do my duty to God and my Country, and to obey the Scout laws.

"To help other people at all times. "To keep myself physically strong, mentally awake and morally straight."

In brief, the laws of a Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.

Lastly, a true Scout must do a good turn daily.

Application for enrollment in the various troops of the county and any information on the subject of Scouting may be obtained from Scout headquarters, 1223 Burlingame Ave., Burlingame.

The city council held its regular meeting last Tuesday evening and discussed the appointment of another police officer and the placing of the new lights in the residence district which will be free for this purpose as soon as the new lights on the highway are ready for service.

A new planning commission ordinance was read for the first time as was an ordinance relating to new subdivisions, both of which will be passed at the next regular session.

New ornamental electric light brackets are being placed on the poles on the highway. They will carry 600 candle power lamps and will put the city on the map to some extent.

The local barbers are thinking about raising the price of children's hair cutting to 65 cents on Saturday, and hope in this way to stop the overcrowded condition of the shops on Saturday.

People of Stanford Park met this week and determined to form the Stanford Park Improvement Association. They will hold their organization meeting on the 18th in the city hall. The aims of the association will be to get better streets, lights, sewers and the general upbuilding of the district between Middle avenue and the creek.

Natural Gas Now In Redwood Dist.

Natural gas is now being served the householders of Redwood City and the southern end of the county through the mains of the Pacific Gas and Electric Co. It is expected to be turned on in San Mateo and Burlingame next Monday, according to W. T. Kellogg, local manager of the company.

The county's first supply of the new fuel, which comes from the Kettleman Hills, was admitted at midnight Sunday to mains of the Redwood City territory, including East and North Palo Alto, Menlo Park, Atherton and San Carlos Gardens.

A crew of close to 500 men moved into the district Monday morning to make necessary adjustments and replacements of gas jets and to advise patrons on the use of the new fuel.

"Isle of Chance" At Sequoia Oct. 19

"The Isle of Chance," an operetta, is to be presented in the Sequoia auditorium October 19, by Mr. Otis M. Carrington, director of music at Sequoia. Mr. Carrington wrote "The Isle of Chance" in 1915, but this is the first time it has ever been produced by students of Sequoia. The cast has been picked and is rehearsing regularly. According to word received, this operetta is expected to be one of the best Mr. Carrington has ever produced. The advanced dancing girls will be used in this operetta, also. The plot, a ship full of voyagers is wrecked and cast upon an island, ruled over by a very greedy king.

Raymond Farrell and Margaret Lawler won first prize for the waltz contest held at Forester's Hall, Redwood City, Wednesday night. The judges carried four points, and this couple made them all.

The end of Scouting, its ideals, and its benefits may be shown by the Scout law oath. Each Scout takes the following oath on being presented his badge:

"On my honor, I will do my best to do my duty to God and my Country, and to obey the Scout laws.

"To help other people at all times. "To keep myself physically strong, mentally awake and morally straight."

In brief, the laws of a Scout is trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean and reverent.

Lastly, a true Scout must do a good turn daily.

Application for enrollment in the various troops of the county and any information on the subject of Scouting may be obtained from Scout headquarters, 1223 Burlingame Ave., Burlingame.

The city council held its regular meeting last Tuesday evening and discussed the appointment of another police officer and the placing of the new lights in the residence district which will be free for this purpose as soon as the new lights on the highway are ready for service.

A new planning commission ordinance was read for the first time as was an ordinance relating to new subdivisions, both of which will be passed at the next regular session.

New ornamental electric light brackets are being placed on the poles on the highway. They will carry 600 candle power lamps and will put the city on the map to some extent.

The local barbers are thinking about raising the price of children's hair cutting to 65 cents on Saturday, and hope in this way to stop the overcrowded condition of the shops on Saturday.

People of Stanford Park met this week and determined to form the Stanford Park Improvement Association. They will hold their organization meeting on the 18th in the city hall. The aims of the association will be to get better streets, lights, sewers and the general upbuilding of the district between Middle avenue and the creek.

PRESBYTERIAN CHURCH NOTES

A record crowd attended the ham supper given by the Ladies' Auxiliary last Wednesday night, such a crowd as exhausted the dinners before all were served in spite of the fact that the ladies had prepared for more than the usual attendance. The ladies desire to express regrets that they were not able to serve all and also express thanks for the generous patronage.

Any who bought tickets and were not present in time to be served may have their money refunded. The occasion proved the need of the new dining room which will now be rushed by the committee in charge. The program following the supper consisted of several numbers by the orchestra, readings by Mrs. E. Gardner, a solo by Geo. Aabe, and singing from the screen, old Southern Melodies.

The Call Roll Services last Sunday were largely attended, 61 being present at the morning service and 79 at the Women's Night Service. 140 were present at Sunday School, counting the visitors. The goal for the church services has been set at 109 to be reached during the Loyalty Crusade.

Next Sunday evening will be Men's Night, the men being requested to sit in the reserved section. Fifty one men will be necessary to beat the record of the women last Sunday evening. At that service the Pastor will speak upon "The Marks of a Man." The morning service will emphasize the relation of the family to the church and the nation. The people will be requested to attend by families as far as possible. The Church Loyalty Crusade will continue until Thanksgiving with special services each Sunday. Make an effort to attend these interesting services.

All three Christian Endeavor Societies are sending large delegations to the District Convention at Palo Alto this Friday, Saturday and Sunday. About 25 are registered for the Banquet Rally at Stanford Union on Saturday evening.

Lois Horan celebrated the tenth birthday Monday afternoon and received many beautiful as well as useful gifts.

MENLO TAKES FORWARD STEP

That Menlo Park has at last woken up and intends to take her place among the progressive cities on the peninsula is evidenced by the fact that employees of the Pacific Gas & Electric Company are placing ornamental brackets on the poles on each side of the Highway in the business district for a new lighting system.

There are two things that make a city or town—"GOOD STREET LIGHTING AND GOOD STREETS." Up to this time Menlo Park has had neither and the members of the City Council who worked for the lights are to be commended for their progressive ideas and civic spirit in putting this lighting system over.

Of course, and as is usual in all cities, there are some who "can't see it," and are putting up a kick. They are singing the old song, "A Waste of Money." In order to make money, money must be spent. Street lights and good streets are the best advertisements a city can have.

The Highway will, without a doubt be widened in time and as the Recorder understands the matter the Pacific Gas & Electric Company will attend to the moving of the lights back to the curb line and placing them on proper standards or poles without cost hence the present brackets will not be discarded and there will be no loss to the city in money or in any other way.

The men who are putting in their time as engineers for the State Highway Commission and the Pacific Gas & Electric Company, and who are in charge of the supervision of the work in installing these lights know their business and the people of this city do not need to worry about the new lights being money wasted.

The old lights which have been on the Highway, some twenty or more we believe will be placed else where they will be of the most service.

One of these could well be placed at Oak Grove avenue and the railroad which is now a dark and dangerous corner for both pedestrians and drivers of cars.

Another place where a light is particularly needed is at the intersection of Ravenswood avenue and the railroad crossing. This crossing is as "Dark as a Dungeon" and a driver of a machine is unable to see to any extent what is going at the crossing. A great many times freight trains are stopped across Ravenswood avenue and in the darkness a driver approaching the crossing, even at 15 miles per hour, is liable to hit a freight car and pile up. The result People will say "Just Too Bad." Why not put a light there and save a life? One life saved in a year will save more than the cost of these two lights many times over.

Another hue and cry is raised because there are a couple of petitions before the Council for paving streets in Stanford Park. Why howl about streets in Stanford Park? If the residents in that district are progressive enough to get paved streets let them have them.

Any street in the city can be paved provided 51 per cent of the property owners petition the council to have the work done. It is up to the property owners to get the work done not the Council. It is not the duty of the Councilmen to circulate the petition but the duty of those living on the street to ask for what they want, and now is the time to do it. Don't waste your breath kicking, use it to get your street work.

There is no time like the present to get started. Let's make Menlo Park a good place to live in and then more people will live here, and thus help ourselves, our merchants and our city.

Howling and fault-finding never got anyone anyplace. We all have our faults. Let us forget it and get busy.

PENINSULA SHRINE CLUB FORMED AT BURLINGAME

The Peninsula Shrine Club was formed Monday night at a meeting of thirty-second degree Masons held at Burlingame Masonic temple. Joseph C. Beard was elected president, Harry E. Jenkins, vice president and Glenn H. Stern, secretary. The executive committee will consist of Harry Brown, San Mateo; Ira Potter, South San Francisco; R. A. Klassen, Redwood City, and Wallace B. Plummer, Burlingame. The new club will be social in character and will include thirty-second degree Masons throughout San Mateo county. The Burlingame Masonic Temple will be headquarters.

F. J. FURNIVALL FILES SUIT FOR \$20,000 AGAINST CHIEF OF POLICE TOM FURMAN

F. J. Furnivall, peninsula furniture dealer and resident of Menlo Park has filed suit in the Superior Court of San Mateo County for \$20,000 damages for alleged "false arrest and malicious prosecution," against Chief of Police Thomas Furman and Officer W. B. Herring of the Menlo Park Police Department.

The cause of the suit was the arrest of Furnivall on a charge of disturbing a meeting of the City Council on June 18th. Furnivall was acquitted of the charge by a jury in Judge Cook's court on September 25.

The suit was filed in the San Mateo County Superior Court Wednesday by Attorney A. J. Stebbins. The Sun Indemnity Company of New York, which holds Furman's bond is also named a defendant.

SAN MATEO COUNTY FLOWER EXHIBIT AT FERRY BLDG.

Exhibits of flowers from San Mateo county, together with the three cups won at the recent state fair, are on display in the window of the State Chamber of Commerce at the Ferry Building in San Francisco.

The exhibits are there to advertise the fall flower show to be held at the San Mateo Junior College on October 18, 19, and 20.

The roses and carnations are from the E. W. McLean Company, Burlingame and San Mateo. The chrysanthemums are from the gardens of M. Watanabe, Redwood City. The straw-flowers are from the Y. Takahashi gardens at Montara.

Give The Bride A "Recipe Shower"

By JOSEPHINE B. GIBSON
 Director, Home Economics Dept.,
 H. J. Heinz Company

ARE you planning to entertain for a bride this season? If you are, a recipe shower will not only be novel and enjoyable to the guests, but will be greatly appreciated by the new bride.

In a fashion, it is a kitchen shower—each guest tying to her gift half a dozen of her favorite family recipes suggesting uses for the gift. For instance, if one has a set of sandwich cutters for the bride, give her sandwich recipes; if a casserole, meat recipes; if a nest of bowls, cake recipes and so on.

If the shower is also a luncheon, the following menu for a plate luncheon is most attractive as well as easily prepared and served.

Creamed Veal and Olive Patties
Sunshine Salad Sweet Gherkins
Chopped Celery and Nut Sandwiches
Graham Cracker Pie
Coffee

Using sprigs of watercress, divide the luncheon plates into four sections; in one section serve the veal patty, in another a mound of tiny pickles, in the third the salad, and in the fourth the sandwiches. This makes an attractive plate.

Cream Veal and Olive Patties—Melt, in a saucepan, 3 tablespoons butter, add 3 tablespoons flour and stir until well blended. Add 2 cups milk and cook until thick. Season with salt, pepper and Worcestershire sauce. Add 1 1/2 cups diced cold veal (roast or stewed) and 1/2 cup stuffed olives, sliced. Serve in bread patties, garnished with a sprig of parsley or a slice of olive.

Cut stale bread into slices 2 inches thick. Remove crust and scoop out as much as possible from the center. Brush with butter and brown in oven. These make delicious patty shells.

Sunshine Salad—Dissolve 1 package of Lemon Jello in 1 1/2 cups boiling water. When mixture begins to thicken, fold in 1 cup grated carrot and 1 cup crushed pineapple from which the juice has been drained. Pour into individual molds, chill and serve in crisp lettuce cup garnished with a spoonful of Mayonnaise Dressing.

Graham Cracker Pie—Mix 2 cups fine graham cracker crumbs with 1/2 cup butter and 1/2 cup sugar. Put this mixture into a pie pan, reserving 1/2 cupful. Bake in a moderate oven for 10 minutes (the crust will become crisp and firm in the baking). Cool and fill with the following custard.

Custard—To 2 cups scalded milk add 3/4 cup sugar mixed with 1/2 cup flour. Cook until thick, stirring constantly. Add 2 egg yolks and cook until thick again. Cool, flavor with vanilla, pour into pie crust, cover with meringue. Sprinkle with reserved crumbs and brown in oven.

MENLO OAKS OUTPLAY STANFORD YEARLINGS

DE GROOT'S GRIDDERS TIE CARDINAL FROSH IN STADIUM

Battling desperately on their home field the Stanford Frosh held the Menlo Junior College gridders to a 13-13 tie in the preliminary to the Stanford-Oregon game in the stadium, Saturday. Out-played by the Oaks through out the game a "lucky break" in the first quarter was all that kept the Cardinal gridders from defeat.

Menlo Scores First

The Blue and White scored in the first quarter when Pozzo went around the end after two long passes and brilliant running took the ball to the three yard line. Gordy Campbell made the extra point by booting the ball squarely through the uprights.

A few minutes later the Frosh retaliated when Atterbaugh ran 85 yards from the kick-off for a touchdown. Stanford failed to convert. Stanford scored again in the second quarter by straight line plunges, making the extra point on a perfect place kick.

Oaks Score Again

Following the kick-off the Blue and White men took the ball 60 yards on four plays. Hromadka twisted, turned, and ran 52 yards before he was downed by the Frosh. Parslow plunged over the line for the touchdown which tied the score. Campbell missed the goal on the second kick.

In the second half neither team scored but the Menlo men constantly threatened the goal of the Frosh. As the game came to a close they were deep in the territory of the Frosh.

Menlo gained the Frosh two to one in distance and in passes. Nearly all the squad took part in the game. The line-up was: Piver, Tod, ends; Becker, Wright, tackles; Orr, Sandholdt, guards; Whittaker, center; Campbell, quarterback; Pozzo, O. Muggenthaler, halfbacks; Parslow, fullback.

HOWARD VOTED NEW VICE PRESIDENT IN J. C. MEETING HERE

CHOICE OF COMMISSIONER POSTPONED UNTIL NEXT SPRING

Headmaster Lowry S. Howard was chosen vice-president of the Northern California Junior College association during its sessions in Menloak Yard Saturday. At the same time C. S. Morris, Dean of Modesto junior college was elected president. The post of the athletic commissioner, the supreme arbiter of intercollegiate sports, will be left vacant until the spring sessions.

Visiting educators expressed their satisfaction in the progress of Menlo and their appreciation of the hospitality extended them. Menlo is situated centrally, so it will probably be the conference college quite often in coming years.

Stanford Has New Policy

In addition to the important addresses in the morning, noon, and afternoon sessions, the announcement of Stanford's new policy for the admission of junior college transfers was discussed. Due to the variation in value of junior college marks the admission of students will depend on both the marks and the college giving the marks. Menlo ranks as a college where grades are equivalent to marks at Stanford.

Elsewhere in this issue the new certificate requirements are described.

THE GREENE MURDER CASE

SAVE MONEY

Ownership of a Pontiac Big Six is an experience in economy. True, most people choose Pontiac, not because it is so inexpensive, but because of the many big car advantages which it provides. But it is a fact that with a Pontiac you actually save money. You save—

When you buy . . . When you drive . . . When you trade it in

You save when you buy a Pontiac because it is the lowest-priced car ever produced which offers so many advantages. You save when you drive because, according to a large corporation which employed 996 cars of 33 different makes during 1928, Pontiac costs one cent less per mile to operate than any other low-priced six. You save when you trade it in because the demand for used Pontiacs has always exceeded the available supply. Come in to see and drive the car which offers all these advantages.

Pontiac Big Six, \$745 to \$995, f. o. b. Pontiac, Mich., plus delivery charges. Bumpers, spring covers and Lovejoy shock absorbers regular equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values. . . . Outlandish Pontiac delivered prices include only authorized charges for freight and delivery and the charge for any additional accessories or financing desired.

An electrically-operated razor with a blade which oscillates sideways while the user draws the razor down his face has been developed.

VIKINGS MEET MENLO GRIDDERS HERE TODAY

ANNIN'S MEN WILL MEET REAL COMPETITION IN CONTEST

The Menlonians will clash with the Palo Alto high school on the Menlo turf this afternoon. Whether they will be able to repeat the victory of last year is a matter for conjecture for injuries received in the San Jose game will hurt the Blue and Gold gridders. Annin's men are working hard in preparation for the game. Several new combinations are being tried for the game.

The following Friday the Menlonians will meet Damon here in the first conference game. Subsequently Coach Annin's men will play Bellarmine, Belmont, San Rafael, Tamalpais, and Montezuma.

—El Roble Blanco, Menlo School.

MENLO SURVEYING CLASS FACES YEAR OF HARD WORK

A new course in elementary surveying has been started this year in the junior college for those students who are particularly interested in that kind of work.

The lecture part of this course is under the direction of Dr. James and is given every Thursday morning from 9:10 to 10 o'clock. Mr. Macabee has charge of the field work which is given on Tuesdays from 12:40 to about 5 o'clock. Every Monday morning at 8:15 the students hold their class inside and make drawings and check up on their notes.

The instruments used in this course consist of a transit, level, chain, rod, and stakes. The purpose of the course is to make the students familiar with the instruments and their different uses.

At the present time there are eight students registered in the class. Elementary surveying is a 2 semester course and will meet Stanford's requirements.

Students on Chain Gang

So far the students have learned how to throw the chain and have paced off the ground. The pacing was very accurate, only being off 1 foot for every 100 feet. They have also surveyed the football field. The goal post at the north end of the field was found to be six inches out of line.

Most of the field work will be done in the hills back of Stanford. Later in the year it is being planned to have the students make maps of the site for the new Menlo Junior College buildings on the Stanford campus.

—El Roble Blanco, Menlo School.

PACIFIC FROSH PLAY OAKS HERE TOMORROW

DEGROOT'S GRIDDERS READY FOR TIGER BABES SATURDAY

After a onesided victory over San Jose State and a draw with the Stanford Froshmen, the Menlo junior college varsity will give the College of the Pacific freshmen footballers a warm reception when they meet on the Menlo field, Saturday morning at 10:30.

At present not much is known of the strength of the Stockton collegians and it looks as if the Menlo gridders should have an easy time in defeating them. This the last practice game before the conference begins. Many substitutes will probably see action.

Menlo Favored to Win

Last year Coach DeGroot and his warriors journeyed to Stockton and scored four touchdowns to the College of the Pacific Freshmen's one.

Thus far, Menlo has been favored with only a few injuries. Young is still out with a bad ankle, while Buchanan is also out with an ankle injury which he received in a scrimmage last week.

—El Roble Blanco, Menlo School.

CUBS TRIUMPH IN SECOND GRID GAME

Conquering the Menlo Park grammar school team the Cub gridders romped to victory to the tune of 13 to 0 in the second game Wednesday afternoon. Coach Sharp's men out played their opponents throughout the game, showing that weak points had been strengthened during the week since the last game when Menlo tied Menlo Park 13-13.

Touchdowns made by Fuller and Goldthwaite brought the score to 12-0, the extra point coming when the losers were offside when Sinton tried to convert.

The line-up was: Holland, Rush-ton, ends; Schwabacher, Fleming, tackles; Emory, Edwards, guards; Broughton, H. Sinton, center; Crum, Goldthwaite, Michaels, Fuller, Wingfield, backfield.

—El Roble Blanco, Menlo School.

Mrs. Dora Wagoner was given a surprise shower last Friday afternoon. Several ladies of Menlo Park were present.

A Two-Dollar Dinner For Six

Cream of Spinach Soup...31¢
Chinese Rice and Shrimps...39¢
Stewed Celery...15¢
Hot Rolls and Butter...25¢
Lettuce, Onion and
Pepper Salad...33¢
Plum and Apple Dessert...40¢
Large Coffee with Cream...15¢

Cream of Spinach Soup: Add one-half cup of water to the contents of an 8-ounce can of spinach, stew for five minutes, and then press through a sieve. Make a white sauce of four tablespoons butter, four tablespoons flour, three and one-half cups milk, one and one-fourth teaspoons salt, pepper and a few grains of nutmeg. Add to the spinach puree, reheat and serve.

Chinese Rice and Shrimps: Boil one and one-eighth cups rice till tender; dry and fry in some drippings until a pale yellow, but not too dry.

Add one tablespoon Soy Sauce, as it fries, to season. Then pack the rice in a buttered mold, heat in the oven five minutes, and turn out onto a hot serving platter. Meanwhile melt two tablespoons butter, add two tablespoons flour, and stir smooth. Add two cups milk slowly, stirring constantly until thick and smooth. Add one-half teaspoon Worcester-shire sauce, salt, cayenne, and then the contents of one 5 1/4-ounce can of shrimps. When very hot, pour over and around the rice mold and serve.

Plum and Apple Dessert: Cut a sponge cake in six servings. Pour over the juice from a No. 2 can of plums, and place in ice box till dinner time. Pile the apple sauce, also ice cold, on top of the six servings, and serve, garnished with white plums.

Household Science Institute.

TOMATOES

Tomatoes are one of the easiest of vegetables to can. They are an acid vegetable and as such do not present any of the difficulties that sometimes arise in canning the non-acid vegetables. Tomatoes are so rich in vitamins that they are quite necessary in the diet, and fortunately retain their vitamin value after being canned. All wise

Grace Viali Gray, homemakers will can many quarts of tomatoes for their winter menus when vitamins are not so plentiful.

For canning, use only sound, firm ripe tomatoes. Cut off any green, unripened parts. Scald 1 1/2 to 2 minutes to loosen the skins. Putting the tomatoes in a square of cheesecloth facilitates this process. Dip in cold

Making Tomatoes Ready for Canning. water, core and peel. Pack in jars. There are two styles of packing tomatoes. One way is to pack them solid or whole. The other is to pack them mashed in their juice.

For the solid pack, pack the tomatoes whole, pressing down firmly enough to fill all air spaces; add only the juice which drains from the tomatoes during peeling and cutting. If the tomatoes are to be sold, this is the type of pack that government

OFFER \$5,825 IN PRIZES IN NATIONAL CANNING CONTEST

To ward off a threatened surplus of farm products in many sections and to impress more housewives with the economy and healthfulness of home-canned foods, a National Canning Contest is now under way to find the best jar of canned fruit, vegetables and meat in the country. Two hundred and twenty-two cash prizes totalling \$5,825 have been hung up by the Sears-Roebuck Agricultural Foundation, including a grand sweepstakes prize of \$1,000 for the best jar of canned food entered in the contest. Any woman or girl is eligible to enter the contest, but entries must be in not later than October 1, 1929. Further information on the contest and free jar and entry blanks for sending in entries may be had by writing to Anna Williams, director, National Canning Contest, 923 S. Homan Avenue, Chicago, Ill.

regulations require. Add 1 teaspoonful of salt to every quart. Seal and process. Process means sterilize.

For the other type of pack, the irregular, broken or extra large tomatoes can be used. Scald and cold dip to remove the skins. Mash. Fill jars. Add 1 teaspoonful salt to each jar. Partially seal and process.

Whole canned tomatoes look more attractive and should always be canned this way for exhibition purposes. They should be canned whole, also, when desired for salads. The other type of canning enables one to get more tomatoes in a jar and is excellent for soups.

Tomato puree can also be made by cooking tomato pulp until it is the consistency of catsup, after which it is seasoned, strained and packed hot in jars and canned. It is all ready for use when the jars are opened.

After the jars of tomatoes and tomato puree are ready for canning, put them in the steam pressure cooker. Have boiling water almost to reach the rack in bottom of cooker. Fill cooker with jars, adjust cover by tightening clamps opposite each other. At the same time, see that all clamps are tight and no steam escapes except through the petcock. When steam comes from the petcock, close petcock completely, and allow pressure to rise to 10 pounds. Sterilize 10 minutes at this pressure. Keep uniform pressure to prevent loss of liquid in jars.

Remove cooker from fire at the end of the processing period, and allow gauge to register zero before opening the petcock, then open gradually to prevent loss of liquid in jars. Remove jars, completely seal, invert, cool, watch for a few days, then store in a cool, dry place.

Mrs. Pearl Ragan, local dancing instructor, has begun classes for ladies wishing to reduce. Her telephone number is 8309.

PIGGLY WIGGLY

ANNOUNCING THE NEW PIGGLY WIGGLY COOK BOOK

For months we have been compiling this book for our patrons and friends. We feel that you have a right to expect a Piggly Wiggly Cook Book to be the very best, the most practical, the most convenient to use and the most attractive in every way.

Therefore, we secured the services of an expert in this work, and she has spared no effort nor expense in getting up a book that we are proud to put the name PIGGLY WIGGLY on.

The recipes are unusual. The book is different in that it features no one particular article, as most Cook Books do. The recipes are therefore most diversified and have been obtained from the finest chefs and kitchens in the United States.

We will distribute this expensive book absolutely FREE Friday and Saturday, one to each customer—children excepted. We would suggest that you get yours early, as the supply will be taken quickly. They are ready for you now, in all Piggly Wiggly Stores in San Francisco, Daly City, South San Francisco, Burlingame, San Mateo, Redwood City and Menlo Park.

In addition to the special feature of distributing this valuable Cook Book, Friday and Saturday, all Piggly Wiggly Stores and Meat Markets in San Francisco and San Mateo Counties offer for your PERSONAL SELECTION the following exceptional values:

BUTTER SUNSET GOLD 1 Lb. Solid 52c

Always fresh and sweet in the big ice box.

MILK, LIBBY'S

3 Tall Cans 25c 6 Small Cans 25c

Use it for the table and all cooking where milk is required.

OATS, QUAKER Small Pkg. 11c

QUICK or REGULAR. The most delicious of all breakfasts—has a creamy richness.

SUGAR BROWN or POWDERED 1 Lb. Pkg. 9c

For cooking or table use—in a dust-proof package.

COFFEE, S. & W. 1 Lb. Can 49c

The "Mellow'd" Coffee with the rich tempting flavor and fragrance.

SOAP, CRYSTAL WHITE

5 Bars 18c 10 Bars 33c

Pure laundry soap safe to use on the most delicate fabrics.

FLOUR GOLD MEDAL No. 10 Bag 55c

"Kitchen-Tested"—a light fine snow-white flour for perfect results.

BREAD PIGGLY WIGGLY Large Loaf 10c

WHITE, WHOLEWHEAT or PULLMAN. Bread of the first quality at an exceptional price.

FRESH FRUITS AND VEGETABLES

APPLES, JONATHAN 3 lbs. 25c Per lb. 9c

The first car of these wonderful apples from the Northwest; famous for baking or table use.

RIVER POTATOES 5 lbs. for 18c

Uniform size, clean skin; already sacked for you.

BUNCH VEGETABLES Each 2c

Fresh picked bunches of young carrots, turnips and beets.

CELERY Each 8c

Large stalks of well-bleached celery from local gardens.

MEAT MARKETS

SWIFT'S EMPIRE BACON Per lb. 32 1/2c

Delicious sweet cured; in the half or whole piece.

PRIME RIB ROAST Per lb. 28c

Bent short of A-1 Super Beef.

PORK ROAST Per lb. 22c

Fresh pickings; U. S. government inspected. Lean Eastern Pig Pork.

YOUNG HENS Per lb. 37 1/2c

Swift's milk fed, Golden West fowl.

We reserve the right to limit quantities sold at these low prices. We want our customers to receive the benefit of our large buying power, but do not want other retailers to take advantage of us.

We Have Your Number
